Hi [REDACTED]

Thank you for this. I have verified most of them. I have sent you an alert for anything that is still missing or require additional justification,

Cheers,

Hi

Thanks for the update on your work on E[REDACTED]e. I have verified most of them as per your list. However, the below participants would require some more work:

– the justification for his lack of evidence is not strong enough unfortunately. Saying that he “repeatedly found reasons not to gain his adoption certificate or set up bank account” does not prove or indicate his eligibility to the program.

It has to be filled in a way that there is no doubt that what the participant said on registration form (or self-declaration if present) is true and you do not have any reason to question this. The justification you have used highlight the fact that you couldn't obtain the evidence and not the fact that **you are confident that despite the lack of them, you believe that the participant has the right to live and work in the UK, live at the given address, etc.**

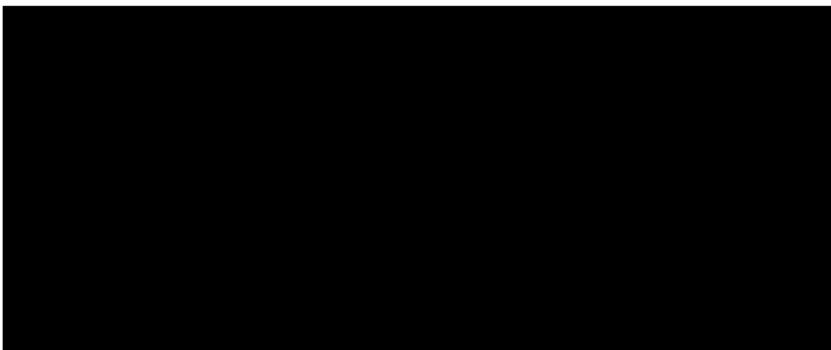

You need to give reasons why you believe the info is correct. As a minimum you should say something about the address and the right to live and work - as these two things are about somebody's eligibility to even be on the project. When you have a participant referred from DWP then you can safely assume that they have done those checks and this is good enough reason for you to put down on a justification.

[REDACTED] – similar here- can you indicate that you believe he has the RTL&W in UK as he got a job and his new employer conducted those checks; that you have worked with him and you know and understand his situation e.g. address, age, economic status etc

[REDACTED] – please use justification for using not the preferred evidence of address

[REDACTED] – we need justification for “employment gained” as the correspondence uploaded with his employer is not the preferred evidence e.g. it does not officially confirms the employment

As always I am looking forward to more registrations coming my way
