---

Apologies we are planning on a 2 week application window so the DEADLINE is Friday 28 JAN - this will be confirmed when the application pack is issued on Friday

Hello,

As we told you yesterday, we have now been given a green light to extend the CLLD programme.

This means we will be able to offer existing projects the opportunity to extend their CLLD projects up to 31 December 2022.

We plan to issue the formal process, criteria and forms on Friday 14 Jan – the paperwork will be based on the current Project Change Request files (a narrative and 2 spreadsheets with budget and outputs/results). We expect the deadline for submission to be Friday 28 Feb 2022.

We are running this session to explain the process and criteria that will be used to make decisions so that you know what to expect. If you're interested in an extension, we strongly encourage you to attend or watch the presentation back later in the week.

We will include time to ask questions after the presentation. In addition, we are offering online 1-2-1 drop-in sessions. If your project would like to ask specific questions or needs any help when completing the forms, you can book into one [REDACTED]

As always, any questions please get in touch
