Hi [REDACTED]

Please see attached a revised report which will help you determine the granular aspect of outputs. I have added a column at the very end and inserted a formula to calculate participants' age at the point of registration. Unfortunately, the rest of info (i.e. number of participants from ethnic minorities, carers etc) will need to be filtered.

Hope that's okay.

Hi [REDACTED]

The Outputs form does include the breakdown of the target groups yes and we would like you to fill this in for the PCR.

I don't think [REDACTED] will be able to provide this data in advance of the deadline tomorrow we are focusing on ensuring projects have the correct verified outputs/results and financial claims, whilst continuing to pay current claims.

In reality this is not a major factor in the scoring criteria for individual projects but does feed into the programme level monitoring so don't worry about it too much at this stage.

Hope that makes sense

**Subject:** Query re the segmentation of the new outputs

Hello ladies

Apart from annotating how many have already been verified, and how many new numbers are we hopeful of achieving, do we need to be giving the additional number for over 50, ethnic minorities etc?

If so are you able to do this more detailed analysis for me [REDACTED] of what's been achieved?

Thank you
